Katie and Katharine

Attached is the technical direction for the New Mexico Nutrient Framework Technical Support in the format as requested. In regards to the LOE, I placed estimated hours with no dollar amount since I don't have the IGCE cost sheet to calculate the actual dollar amount. Additionally, since the project will require greater than the funds provided, I've indicated that the project will be funded incrementally with plans to add additional funds later this year assuming this is allowable but please verify.

New Mexico Nutrients Technical Direction Draft.docx

I would appreciate if you would help me by sending me a copy of the TO 79, Task 5, allowing me to read what all is included in this task order.

We will be looking for your response in the coming days.

Cheers
